سخنرانی آزمایشگاه امنیت داده و شبکه

Connected vehicles, Big Data and Security

Architecture overview, Challenges and Solutions

Dr. Saeed Sahami

Dr. Saeed Sahami has PhD in Civil engineering /Transportation with minor in Management & Entrepreneurship (UBC, Canada), MSc Mechanical/Automotive (Sussex, UK), BSc Electrical/Control (Sharif, Iran). During and after his PhD at UBC, he provided consulting services in Canada in the fields of vehicle and pedestrian traffic simulation, driver behavior mathematical modeling, Hadoop implementation, big data and IT security including 4000+ hrs professional services to enterprises and government agencies. Dr. Sahami is now funding/managing two new high-tech spin-off projects out of NiliCar in Iran:

- mobicar: a smartvehicle hightech initiative (mobicar.ir), and
- nilipart: the first automotive spare parts ecommerce (nilipart.com).
